Re: Huron Street Reconstruction Project – Notice of Construction Operations

TULLOCH Engineering Inc. has been retained by the Town of Thessalon to provide Design, Project Management and Site Inspection for the Huron Street Reconstruction Project, being constructed by Pioneer Construction. In general, the work will include the replacement of the existing watermain, sanitary sewers, storm sewers, excavation of the road base, replacement of curb and gutters, new sidewalks, repaving of the road surface and entrances.

Construction operations are scheduled to begin the first week of May and continue through to the end of August 2024. Sections of **Huron Street & Main Street** will be closed to vehicular traffic throughout the construction period and detours at the Main St. intersection will be in-place.

Pedestrian access will be impacted, but not restricted.

The positive end result will make the inconvenience of local construction worthwhile. We appreciate your patience in this regard.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Jeff Seabrook', is written over a light blue circular stamp.

Jeff Seabrook, CET, rcca
Assistant Project Manager
