Recycling - Circular Materials

As of January 1, 2026, Circular Materials is operating Ontario's new producer-funded Blue Box recycling program; resulting in that residents across the province can now recycle the same materials.
In Thessalon, several updates have been made to curbside recycling. Glass, flexible plastics, and foam packaging are now accepted when placed out during their applicable collection week.

Please note that some items are not accepted in curbside recycling. A full list of accepted materials and the recycling schedule is available on the town website or at the Municipal Office. These changes expand recycling options and support ongoing efforts to reduce waste sent to landfill.

Water and Sewer Rate Review

Please note that a review of the current water and sewer rates will take place with potential rate adjustments to be presented to Council at a future meeting.
Water and sewer rates have remained unchanged since 2016 (water) and 2019 (sewer). This review is being undertaken in response to rising operating costs to support the continued sustainability and reliable operation of these essential services.

Are you registered to vote?

The next Municipal and School Board Election will be held on Monday, October 26, 2026.
We encourage residents to confirm that they are on the Voters List and/or to register to vote by visiting the website: RegisterToVoteON.ca,

If you require assistance, please visit the Municipal Office, and someone will be pleased to assist you.

Welcome Dr. McLaren!

The Town of Thessalon is pleased to announce that Dr. David McLaren has officially signed a contract to join the Huron Shores Family Health Team – Thessalon Site beginning June 2026. After serving the community as a locum physician, Dr. McLaren's decision to join the team on a permanent basis is an exciting milestone that will help strengthen access to primary and emergency care services for residents of Thessalon and surrounding communities.

The Town of Thessalon would like to thank its healthcare partners, community leaders, and residents for their continued support of local physician recruitment initiatives and efforts to strengthen rural healthcare services. Patients are encouraged to register on Health Care Connect by calling 811 or registering online.

Construction Season

Water St and North Subdvision Servicing Project.

This project involves the extension of water and sewer services from the north end of Water Street across Highway 17 to the proposed subdivision area. This project is supported by the Housing-Enabling Water Systems Fund; this initiative aligns with Ontario's goal of increasing housing supply by facilitating new residential development. The project will provide the necessary infrastructure to support future housing growth in Thessalon

Fullerton Bridge

Construction on the Fullerton Bridge has now re-commenced. Traffic will be reduced to one lane for the duration of the construction. Both lanes of the bridge will be closed when road surfacing takes place. Anticipated completion date is mid-summer.

General Road Repairs

General road maintenance continues, including pothotle repairs and drainage work.

Thank you for your patience and understanding while we complete improvements to our town's infrastructure.
